ABSTRACT

Education makes every person perfect and a society with perfect person can be developed in the present world society , economically culturally and technically. In my research area students move to outside the education division .

Because of the poor condition. There are 22 schools with 70% other 30% of the students were studying out side the Pottuvil education division. Out of this 100 have been selected for sample and questionnaire have been given to those students . collected data have been analysed and evaluate. It has consists of five chapters that are Introduction , Literature review , Data presentation, Data analysis & discussion ,and conclusion & recommendation

In the first chapter is considered the Introduction , research problem , objective of research , method to used to collect & evaluate the data , limitations& research conceptualisation that is related to the research. Second chapter consist about satisfaction , source of satisfaction, and objective of teaching, education objective. Third chapter collected information presented & were analyse. It consists of the personal information & information regarding the students satisfaction. All the evaluation of the data were discussed in the fourth chapter that are personal & research information. This research study has come to the conclusion about students satisfaction. I would also like to suggest some recommendation (action plan) to achieve the research objective . this is the final chapter.
