ABSTRACT

Children are the future kings of a country. So they should be motivated to develop their personality. In this way the NGOo contributes a lot to the children in Kuchaweli DS Division in Trincomalee District. To identify whether the projects satisfy the children or not, and also to know the reasons for it, the research study was carried out. It aims to measure the satisfaction of the children with education and skills, health, childcare and protection and nutrition respectively.

This research consist five chapters, each of it has its own importance. The first chapter is the introduction. This deals mainly the problem in research, objectives of the study, conceptualization, methodology, assumptions and limitations.

The second chapter is literature review. It deals mainly about Development and personality relating to the children in the society.

The third chapter is NGOo activities towards the children. This deals to know about the activities of the NGOo's beneficiaries regarding the contribution of NGOo in motivating and development to the personality of children in Kuchchaweli DS division in Trincomalee district.

The fourth chapter is data analysis, presentation and discussion which deals to know about the satisfaction of the NGOo's beneficiaries regarding the contribution of NGOo in motivating and developing the personality of children in Kuchchaweli DS division in Trincomalee district. Ten DS divisions have been considered for this research study and a structural questionnaire

From the Analysis an evaluation, the research comes to a conclusion that the children\ beneficiaries are dissatisfied with the NGOo activities. An important thing that the children are dissatisfied but NGOo are satisfied regarding the univariate analysis. It is proved quantitatively not qualitatively. So in order to overcome this situation and to satisfy the children, there are some recommendations given in chapter 5. I hope that this research will be very helpful to the NGOo and the children.
