## ABSTRACT

The Non Government Organizations (NGOO) makes the vital role in the agricultural development. All resources are suitable for the agriculture in Vavuniya district. But, there is no any considerable improvement in the level of production in the agriculture sector of Vavuniya District. NGOO are providing various types of services towards agriculture sector. This research analysis the activities of NGOO towards agriculture sector are effective or not.

Objectives of this research are Identify the activities of NGOO towards agricultural development, Identify the weakness and drawbacks of the activities of NGOO in the agricultural sector and Recommend feasible solution to get rid of those problems and give ideas for the effective activities of NGOO on agricultural development in Vavuniya district.

The methodology use in carrying out this research on this topic 'Contribution of NGOO on agricultural development in Vavuniya district' is the collection of primary and secondary data in relation to the topic.

When considering the entire set of statements, the finding of result from 100 people of Vavuniya district. Out of 100 respondents, 17% of the sample was fall under the lower level of satisfaction of contribution of the NGOO on Agricultural development, 18% were moderate level of satisfaction and the rest 65% higher level of satisfaction. Contribution of NGOO has mean value of 3.6498. So research can come to the conclusion that, Contribution of NGOO on the Agricultural Development of the Vavuniya District is effective.

As mention in the problem statement, still there is no any considerable improvement in the agricultural sector in Vavuniya district. Therefore, to increase the level of production in agriculture sector, other line agencies servicing in the field of agriculture should consider extending their fullest co-operation and supporting towards the improvement of agriculture in Vavuniya District in future.
