## ABSTRACT

NEIAP is an organisation created for the upliftment of the society and its agriculture based structural improvement in the North East province through irrigation. This research is particularly about its activities in the Manmumai West Divisional Secretary area.

For the projects implemented in this division, 32 million rupees have been spent up to now. This research is about whether the monies released through the banks for the project undertaken by this organisation have been properly utilised for the benefit of the recipients and the accrued results.

The objectives of this research are :-

- I. Identify the main activities of NEIAP.
- II. The impact created in the life of the peoples living in this divisional secretary area by its activities.
- III. How its activities could be improved or enhanced.
- IV. Suggestions for better and effective implementation of NEIAP projects.

This research is based and presented not only on primary particulars, Questionnaires, Secondary particulars and reports, magazines, and manuscripts, but also by using SPSS, EXEL computer methods and basic on Descriptive Statistics, interim solutions are researched.

The basic factors which determines the life pattern of villagers are :-

1. Project for Irrigational Renovation.
2. Village Roads Renovation.
3. Wells Renovation.
4. Renovation of Public properties.
5. Projects for life sustaining income.

According to the above mentioned projects, beneficiaries, have obtained lesser benefits in irrigational projects and satisfactory benefits from the other projects.

In order to uplift the living standard of this village people, this research identifies and recommend, that future projects should take into consideration the reasons identified in this research about peoples participation, rectify and add them in priority basis and implement them successfully.
