ABSTRACT

This survey was conducted with the aim of measuring "A Survey on Sports person in the Town & Gravets Divisional Secretariat Division of the Trincomalee District".

Many researchers have recognized the increasing trends in the importance of sports in Sri Lanka is profound and the developing trends are amazing therefore the survey on Sports person in Trincomalee District will help to assess the actual population Engaged in Sports in different games and the reason which highly influence in sports and these determinants considered as the variables in this survey.

The survey data was collected from 100 respondents of the Town & Gravets Divisional Secretariat Division of the Trincomalee District and their representing 54 Clubs. The collected data was analyzed by Statistical Package for Social Science (SPSS version 1.0) and the results were analyzed and exhibited in Tables and Figures. The collected data were analyzed using the univariate method. The data collected were presented in the form of tables, bar charts and pie charts the data gathered was analyzed using the Microsoft package excel 2000 windows.

The survey revealed that there are resources available for the out door sporting Facilities and lack in indoor facilities and there problems encountered in terms of the Financial assistance for the Sports development of the District. Moreover, less socio economic development causes poor sports development in the District.

The survey recommended that there should be necessary measures to be taken in order to sports develop of the sports District especially in terms of the Indoor Facilities and Contribution of the sports association and the need for the financial assistance is highly emphasized. Moreover, youth, especially students must be directed by proper guidance of teacher or sports coaches at school level and awareness should be created among the people regarding importance of physical education.
