ABSTRACT

This study was attempted to investigate the impact of technological advancement on financial performance of banking industry in Sabaragamuwa province. The objectives of this study is to identify the impact of mobile banking innovation on financial performance of banking industry in Sabaragamuwa province, to identify the impact of internet banking innovation on financial performance of banking industry in Sabaragamuwa province, to identify the impact of debit and credit cards innovation on financial performance of banking industry in Sabaragamuwa province and to examine whether the financial performance and technological advancement vary among the banks. In this study literature part explained independent variables, dependent variable and the relationship between those variables clearly defined by using previous literature reviews.

Conceptual model is developed based on the existing literature. This study was implemented with five variables. Mobile banking innovation, Internet banking innovation, Debit and credit cards innovation and ATM banking innovation are identified as independent variables. Financial performance in banking industry is the dependent variable of the study.

This research study was implemented in Sabaragamuwa province and the 200 respondents were selected from banking employees those who are working as branch managers, Assistant managers, Executive officers, banking assistant and other staff. All selected respondents are participated to the survey and stratified random sampling technique used to select the sample. The data used in this study is primary data obtaining through questionnaire. Data were collected from five commercial banks namely Bank of Ceylon, Hatton National Bank, Peoples bank, Sampath bank and Commercial bank. The collected data were analyzed by using descriptive statistics, correlation analysis, regression analysis and ANOVA analysis using SPSS 19.0. Measurement of the data was five point likert scales.

Based on the findings of the study, it can conclude that mobile banking innovation, debit and credit cards innovation and ATM banking innovation are significant impact on financial performance of the banking industry. And also mobile banking innovation is the most influencing factor on the financial performance of banking
industry in Sabaragamuwa province. When consider the technological advancement is positively correlated with the financial performance in banking industry. Mobile banking innovation and ATM banking innovation have strong positive correlation with financial performance in banking industry. Internet banking innovation and Debit and Credit cards innovation have moderate positive correlation with financial performance in banking industry. Further, financial performance and technological advancement were not varying among the banks in Sabaragamuwa province.

The study recommended that banks must be focused in terms of their needs and using the right technology to achieve goals, rather than acquiring technology. Government participation in ensuring focused telecommunication industry must be visible to reduce or remove avoidable cost of implementing technology innovation. Regulatory authorities like Central Bank of Sri Lanka must stipulate standards for the banks to follow to avoid making banking sector a dumping ground for the outdated technological infrastructures.

List of Equations ............................................................................................................................. xii
Abbreviations ................................................................................................................................. xiii

CHAPTER ONE: INTRODUCTION ................................................................................................. 01 - 07
1.1 Background of the study ........................................................................................................... 01
1.2 Problem Statement ................................................................................................................... 03
1.3 Research Questions .................................................................................................................. 04
1.4 Objectives of the study ............................................................................................................ 05
1.5 Significance of the study ......................................................................................................... 05
1.6 Scope of the study .................................................................................................................... 06
1.7 Outline of the Study ................................................................................................................. 06
1.8 Chapter summary ................................................................................................................... 07

CHAPTER TWO: LITERATURE REVIEW ......................................................................................... 08 - 17
2.1 Introduction ............................................................................................................................... 08
2.2 Banking Industry in Sri Lanka ................................................................................................ 08
2.3 Financial Performance in the banking sector ........................................................................ 08
2.4 Defining Technological Advancement .................................................................................... 09
   2.4.1 Mobile banking innovation ............................................................................................... 10
   2.4.2 Internet banking innovation ............................................................................................. 11
   2.4.3 Debit and Credit Cards innovation .................................................................................. 11
   2.4.5 ATM banking innovation ............................................................................................... 12
2.5 Various Theories of Technological Advancement ................................................................... 13
2.6 Relationship between Technological Innovation and Financial Performance ..................... 15
2.7 Chapter Summary ................................................................................................................... 17

CHAPTER THREE: CONCEPTUALIZATION AND OPERATIONALIZATION ............................... 18 - 26
3.1 Introduction ............................................................................................................................... 18
3.2 Conceptualization

3.3 Conceptualization of variable

3.3.1 Mobile banking innovation

3.3.2 Internet banking innovation

3.3.3 Debit & Credit cards innovation

3.3.4 ATM banking innovation

3.3.5 Financial performance

3.4 Operationalization of Variables

3.5 Summary

CHAPTER FOUR: METHODOLOGY

4.1 Introduction

4.2 Study setting and study design

4.3 Sampling

4.3.1 Study population

4.3.2 Sampling technique and Sample Size

4.4 Data collection

4.5 Methods of Measurements

4.5.1 Questionnaire

4.6 Data Presentation

4.6.1 Data presentation for personal factors

4.6.2 Data presentation for Technological advancement and Financial Performance

4.7 Method of Data Analysis

4.7.1 Univariate Analysis

4.7.2 Bivariate Analysis

4.7.2.1 Correlation analysis

4.7.2.2 Multiple regression analysis

4.7.2.3 ANOVA Analysis

4.8 Methods of data evaluation

4.8.1 Decision criteria for descriptive statistics

4.8.2 Decision criteria for bivariate analysis

4.8.3 Decision criteria reliability analysis
CHAPTER FIVE: DATA PRESENTATION AND ANALYSIS

5.1 Introduction

5.2 Analysis of Reliability of the Instruments

5.3 Frequency Analysis of respondents’ Personal information

5.3.1 Age

5.3.2 Gender

5.3.3 Education level

5.3.4 Department

5.3.5 Time period of banking service

5.3.6 Name of the bank

5.4 Data presentation for variables of the research

5.4.1 Financial Performance

5.4.2 Mobile Banking Innovation

5.4.3 Internet Banking Innovation

5.4.4 Debit & Credit Cards Innovation

5.4.5 ATM Banking Innovation

5.5 Univariate Analysis

5.5.1 Mean and Standard deviation for Financial Performance

5.5.2 Mean and Standard deviation for independent variables

5.5.2.1 Mean and Standard deviation for Mobile banking Innovation

5.5.2.2 Mean and Standard deviation for Internet banking Innovation

5.5.2.3 Mean and Standard deviation for Debit and Credit card Innovation

5.5.2.4 Mean and Standard deviation for ATM banking Innovation

5.6 Bivariate Analysis

5.6.1 Correlation Analysis

5.6.2 Regression Analysis

5.6.2.1 Multiple Regression Analysis

5.6.2.2 Simple Regression Analysis
CHAPTER SIX: DISCUSSION

6.1 Introduction .................................................. 56

6.2 Discussion on personal factors ........................................ 56
  6.2.1 Age Level of the respondent ....................................... 56
  6.2.2 Gender of the respondent ........................................ 56
  6.2.3 Education level of the respondent ............................... 57
  6.2.4 Department .................................................. 57
  6.2.5 Time period of banking service .................................. 57
  6.2.6 Name of the bank ............................................. 57

6.3 Discussion on research variables ..................................... 57
  6.3.1 Financial Performance in banking industry ..................... 57
  6.3.2 Technological Advancement .................................... 58
  6.3.3 Relationship between independent and dependent variable ........................................ 58

6.4 Implementation of research objectives ................................. 59
  6.4.1 Discussion on objective one ..................................... 59
  6.4.2 Discussion on objective two ..................................... 60
  6.4.3 Discussion on objective three ................................... 60
  6.4.4 Discussion on objective four .................................... 60
  6.4.5 Discussion on objective five .................................... 61

6.5 Chapter summary .................................................. 61

CHAPTER SEVEN: CONCLUSIONS AND RECOMMENDATIONS 62 - 65

7.1 Introduction .................................................. 62

7.2 Conclusions .................................................. 62

7.3 Recommendations ............................................. 63

7.4 Limitations of the Study ........................................ 64

7.5 Implication of the study ........................................ 64

7.6 Chapter summary .................................................. 65
