## Abstract

The daily wage incomer live in low level of socio economic status due to their low level of income and unemployment hence, which is why I wish to study on A socio economic survey of daily wage earners in the Alayadivembu divisional secretariat division of Akkaraipattu.

The objective of the study are the find out the socio economic status of the people who gain daily wage for their work, identify the problem of the daily wage earners, identify the for the problems faced by the daily wage earners and find out the solution to increase their income level and uplift the living standard of daily wage earners. In order to carry out the research study the Alayadivembu secretariat area selected as a research area.

The survey of is made based on the information about social factors and economic factors. The secondary data have been collected from 100 daily wage earners in the research area. Here the simple random sampling method is used to select the samples. The collected data are analyzed by using SPSS 11.0 computer package.

According to this research study we can come to the conclusion that there is low level of socio economic status level among the daily wagers in the Alayadivembu divisional secretariat division of Akkaraipattu.
