ABSTRACT

Customer Perception refers to how customers view a certain product/brand based on their own conclusion, these conclusions are derived from the customers' overall experience. Ethical Behavior is acting in ways consistent with what society and individuals typically think are good values. Ethical behavior of retailer is affecting for the customer perceptions in the supermarket.

The main objective of this study is to identify the customer perception on practice of Ethical Behavior of Retailer in Super market. Furthermore, the level of customer perception on practice of ethical behavior of retailers in supermarket is studied. The level of practice of ethical behavior in trading of retailer, level of practice of ethical behavior in advertisement and promotion of retailer, level of practice of ethical behavior in additional services of retailer are calculated through the questionnaires distributed to customers in supermarket at the Hambantota district. This study selected the sample based on Convenience Sampling method. The sample size of the research is 180 customers who use the supermarket in the Hambantota district. The collected data are analyzed by using SPSS.

The data collected in the study were analyzed using univariate analysis. The study tries to find out mean, standard deviation for customer perception on practice of ethical behavior of retailer in supermarket. The findings suggest that all the variables have high level of customer perception on practice of ethical behavior of retailer in super market. This research study can use to Small & Medium Enterprises too.

Keywords: *customer perception, practice of ethical behavior of retailer*
