ABSTRACT

Development of a country mostly depends on its infrastructure development. The infrastructure means the basic necessities such Electricity, Telecommunication, Water, Transportation facilities and there are so many others. However this infrastructure is divided in two categories. Those are Economic and Social. For example we consider a construction of a factory in a specified location in automatically requires these basic necessities. If these basic necessities are inadequate in a place or an area development will be delayed or reduced automatically.

This research study leads to a corporate plan for the development on infrastructure in the Eachchilampaththai Divisional Secretariat Division. The most of research areas are not under the Government. Therefore the Government activities toward the infrastructure facilities are very less. Hence the more facilities are in very poor condition in this area for last decades.

The objective is to identifying the present level of infrastructure in Eachchilampaththai D.S Division, to formulating objectives towards the development of infrastructure in this division, to formulating the corporate plan for the development of infrastructure in the Eachchilampaththi D.S.Division.

Conceptualization model includes Water, Electricity, Transport, Telecommunication. To analyze the present level of infrastructure in this division 200 families were taken as sample from 9 Grama Niladhari Division of Eachchilampaththai D.S. Division. The data was collected by the issuing questionnaire and it was analyzed through SPSS package and spread sheet. The result are illustrated by pie chart.

These four infrastructure facilities are found to be very less in many places. Some of facilities are not at all available in certain areas. According to the identify these problem to recommended that improving the existing water supply, providing the electricity facilities, expand the bus and boat services and providing the telephone facilities.

This study will help and provide all necessary information those who want to develop the infrastructure facilities in Eachchilampaththai D.S. Division, Trincomalee.

CHAPTER 01 INTRODUCTION

1.1 Introduction	01
1.2 Problem statement	02
1.3 Objectives	03
1.4 Assumption	03
1.5 Limitation	04

CHAPTER 02 LITERATURE REVIEW

2.1 Planning	05
2.2 Corporate planning	08
2.3 Strategic management	10
2.4 Strategic planning	10
2.5 Strategic management model	12
2.5.1 Analyze the environment	13
2.5.2 Analysis of stakeholders view	14
2.5.3 View of the corporate policies	14
2.5.4 Determining Mission Objectives and Targets	15
2.5.5 Analyze and select Strategic Alternatives	15
2.5.6 Strategy implementation	16
2.5.7 Controlling & evaluating the strategies	16

CHAPTER 03 CONCEPTUAL FRAMEWORK AND METHODOLOGY

3.1 Introduction	17
3.2 Conceptualization Model	17
3.3 Research methodology	19
3.3.1 Data collection techniques	19
3.3.2 Research samples	19
3.3.3 Data analysis and evaluation	20
3.4 Questionnaire development	20
3.5 Data analysis	21
3.6 Conclusion	21

CHAPTER 04 DATA PRESENTATION & ANALYSIS

4.1 Introduction	22
4.2 Personal information	22
4.2.1 Grama Niladari Division	22
4.2.2 Occupation	24
4.2.3 Sex	25
4.3 Research information	26
4.3.1 Water	26
4.3.1.1 Type of water available	26
4.3.1.2 Separate water supply	27
4.3.1.3 Drinking water	28
4.3.1.4 Domestic purpose	29
4.3.1.5 Type of water using	30
4.3.1.6 Sufficient water	31
4.3.1.7 Reasons for sufficient water	32
4.3.1.8 Reasons for sufficient water not available	33
4.3.1.8 Period of water scarcity	34
4.3.1.9 Get water during draught Season	35

4.3.2 Electricity	36
4.3.2.1 Electricity service (Area)	36
4.3.2.2 Electricity supply connection	36
4.3.2.3 Reasons of electricity not available	37
4.3.2.4 Alternative way of full fills the needs	38
4.3.3 Transport	39
4.3.3.1 Type of road transport	39
4.3.3.2 Transport facilities	40
4.3.3.3 Satisfaction	40
4.3.3.4 Bus service	41
4.3.3.5 Transport facilities to	
distance place	41
4.3.3.6 Good condition of road	42
4.3.3.7 Repair work carried out regularly	42
4.3.3.8 Maintenance	43
4.3.3.9 Long distance road to travel	43
4.3.3.10 Bus fare	44
4.3.3.11 Additional transport facilities	44
4.3.3.12 Wait for long time traveling	45
4.3.3.13 Transport facilities available	
during emergency	45
4.3.3.14 Type of marine transport	46
4.3.3.15 Adequate Sea transport facilities	47
4.3.3.16 Risk for the life prevails	48
4.3.3.17 Regular service	48
4.3.3.18 Fort facilities	49
4.3.3.19 Maintenance work is	
carried out properly	50
4.3.3.20 Efficiency	51
4.3.3.21 Sea transport facilities	
when emergency	51

4.3.4 Telecommunication	52
4.3.4.1 Telecommunication service (Area)	52
4.3.4.2 Telephone connection	52
4.3.4.3 Type of telecommunication service	53
4.3.4.4 Telecommunication centers	54
4.3.4.5 Mobile service coverage	54
4.3.4.6 Speed line connection	55
4.3.4.7 Suitable telephone connection	56

CHAPTER 05 DISCUSSION AND FINDING

5.1 Introduction	57
5.2 Personal information	57
5.2.1 Grama Niladari Division	57
5.2.2 Occupation:	57
5.2.3 Sex.	58
5.3 Research information	58
5.3.1 Water.	58
5.3.2 Electricity.	59
5.3.3 Transport.	60
5.3.4 Telecommunication	61

CHAPTRE 06 CONCLUSION RECOMMENDATION AND ACTION PLAN

6.1 Conclusion	62
6.2 Recommendation	64
6.2.1 Water	64
6.2.2 Electricity	65
6.2.3 Transport	66
6.2.4 Telecommunication	67
6.3 Strategy Formulation	68
6.3.1 Water	
6.3.1.1 Improve the existing water supply	68
6.3.1.2 Providing additional water supply	68

6.3.2 Electricity	
6.3.2.1 Providing Electricity supply	69
6.3.3 Transport	
6.3.3.1 Improving the existing transport	69
6.3.3.2 Creating additional transport facilities	69
6.3.4 Telecommunication	
6.3.4.1 Providing telecommunication service	70
Action Plan	71
Reference	81
Questionnaire (English)	82
Questionnaire (Tamil)	90
