## ABSTRACT

In the now days Social environment, Changes in Land ownership are the key factors. So first; we must study the Changes of Land ownership of Thiraikeny village of Addalaichenai D.S Division is significance matters. So I have started to do a research study on "Changes in land ownership of Thiraikeny Tamil People.

The present situation in the Land ownership of Thiraikeny Tamil village shows a serious condition. People are not able recover from the effects of the terrorist atrocities that took place in 1990. Concrete measure should be adopted to enable the people live without fear and not attempt to migrate. Condition and environmental guaranteeing peace and security should be created. Further, action to re-settle the displaced Tamil people permanently with Muslim people residing around this village, and enable them to live peace fully and amicably as brethren and not enemies. Methodology is obtaining two ways such as primary data and secondary data. Primary data consist interview, questionnaire and secondary data obtain from reports, magazine, and News paper report.

As it is viewed totally, the main problem is the changes in the land ownership. The solutions should be found by considering this problem as the main. Dividing the boundaries legally, repaying the ownership to which lost the ownership, by giving the deed, fitting them in the village are the objective of this study. In times of the situation where there is a compulsory requirement of the use of the Tamil peoples land general purpose giving the land for them in another place, on acting according to the decline of the all people. In addition to this it must be monitored and ensured that, weather there lands are used for the desired purposes. So the divisional secretaries, leaders and ministry must act according to natural justice.

Thus my research study aims at that what ways the changes in Land ownership of Tamil people can we prevented, how to prevent displacement of Tamil people, what are the activities can be taken to safeguard the social, political and political as well as prevalence of peace and protection of human rights of the Thiraikeny Tamil Peoples.
