## ABSTRACT.

Srilanka is an agricultural country. Here the farmers do not get the actual profit for their product. Most of the profit from the products is gain by the markets. At the same time I will do the study on the farmers who are engaged in the Onion cultivators of Vavuniya District in the Venkalacheddikulam D.S. Division.

Here the main objective of my study is to increase income for the Onion producers. On this basis I will do my study on the challenges of Onion producers at Venkalacheddikulam Division in Vavuniya.

Here I will identify the problems faced by the Onion Cultivators and the remedies for the improvement of the cultivation. On this basis my book consists of 5 chapters. On the first chapter is the introduction of my study, the second chapter is literature review. On the third chapter I will produce the information gain from the Onion cultivators by the questionnaire. Like this on the forth chapter consist of the problems faced by the farmers and the solutions are on the fifth chapter.

Like this by implementing these remedies can increase the income of the farmers. Onion is the cash crop on this basis the problems of the farmers can be resolved and can gain my objective very soon. This can not only increase the income of the farmers but also increase the production of Onion cultivation.

So the bare land can be utilized for the onion cultivation, can reduces the poverty of the farmers by this can increase the perkapita, income and GDP [Gross Domestic Production] and can improve the economy of the country.
