ABSTRACT

This survey was evaluate the occupancy satisfaction of housing in Thiraimadu area .In Thiraimadu division the people affected by Tsunami were resettled, several NGO'O, INGO'O and Local authorities built housing scheme for them. The main objective of this research is to evaluate the occupancy satisfaction about housing and find out the ways and means to improve occupancy satisfaction in future.

The variables included in this survey were Structure of house, Environment, Site, Social aspect and Livelihood. To measure these variables data collected from sample 150 families in Thiraimadu area, using proportionate random sampling technique. The collected data were analyzed using the univariate method .The data collected were presented in the form of table and pie charts. The data gathered were analyzed using the Microsoft Excel 2003 package and SPSS 13.0 version.

The findings showed that, the Thiraimadu division people in moderately satisfaction level with housing. Reason for that, insufficient infrastructure facilities, lack of Kitchen facilities, lack of drinking water , inefficient wastage removing facilities, improper access facilities, facing social security problems , lack of employment facilities and difficult to get nutritious foods therefore, chapter seven has recommended for the above issues.

CHAPTER 1 INTRODUCTION	I-7
1.1 Introduction	1
1.2 Backround of the study	1
1.3 Problem statement	4
1.4 Research question	5
1.5 Objective of research	5
1.5.1 Primary objective	5
1.5.2 Secondary objective	5
1.6 Scope of the study	5
1.7 Assumptions	6
1.7 Limitations	6
1.8 Summary	7
CHAPTER 2 LITERATURE REVIEW	8-30
2.1 Introduction	8
2.2 Definition of Resettlement or resilience	8
2.3 Researchers Opinions - Post tsunami	
Reconstruction and Resettlements	9
2.4 Types of reconstruction stages	10

2.5 Disaster Management in Tsunami Reconstruction	11
2.6 Reasons for Reconstructions delays in Srilanka	12
2.7 Active house and passive house	16
2.7.1 Concepts and elements of a passive house	16
2.8 The Right to Adequate Housing	18
2.9 Main characteristic of Housing	19
2.10 The steps in housing process	20
2.11 Housing strategy objectives	21
2.12 Post Occupancy Evaluation	22
2.13 Key features of Post Occupancy Evaluation	23
2.14 Benefits of Post Occupancy Evaluation	24
2.15 Structural considerations of housing.	25
2.16 Important aspects in development of environment -friendly residential settlements	27
2.17 Selection of site	28
2.18 Important of Social aspects	29
2.19 Summary	30

CHAPTER 3 CONCEPTUALIZATION FRAME WORK 31-35

3.1 Introduction	31
3.2 Conceptualization	31
3.2.1 Structure of house	32
3.2.2 Environment	32
3.2.3 Site	32
3.2.4 Social aspect	33
3.2.5 Livelihood	33

3.3 Operationalization	34
3.4 Summary	35

CHAPTER 4 METHODOLOGY 36-42

4.1 Introduction	36
4.2 Methodology	36
4.2.1 Methods of Data collection	36
4.2.2 Sample Method and Size	37
4.2.3 Measure for all variables	38
4.2.4 Data presentation and Data analysis	39
4.2.4.1 Data presentation	39
4.2.4.2 Data analysis	39
4.2.5 Methods of data Evaluation	39
4.2.5.1 Individual Variable Evaluation	41
4.2.5.2 Overall variable Evaluation	41
4.3 Summary	42

CHAPTER 5 DATA PRESENTATION AND ANALYSIS 43-57

5.1 Introduction	43
5.2 Personal Information's	43
5.2.1 Income	43
5.2.2 Family members	44
5.3 Research Information's	45
5.3.1 Structure of house	45
5.3.2 Environment	47
5.3.3 Site	49
5.3.4 Social Aspect	50
5.3.5 Livelihood	51
5.3.6 Overall Consideration	53

5.4 Cross Tabulation Analysis	54
5.4.1 Cross tabulations between personal information and research variables	55
5.5 Summary	57

CHAPTER 6 DISCUSSION 58-66

6.1 Introduction	58
6.2 Discussion of Research Information's	58
6.2.1 Structure of house	58
6.2.2 Environment	59
6.2.3 Site	61
6.2.4 Social aspect	62
6.2.5 Livelihood	64
6.3 Additional Consideration	65
6.4 Summary	66

CHAPTER 7 CONCLUSION AND RECOMMENDATION 67-71

7.1 Introduction	67
7.2 Conclusion	67
7.3 Recommendations	68
7.4 Implication of the Research	71
