EASTERN UNIVERSITY,

SRI LANKA.

# ABSTRACT

Each year new research is published that explores various facets of leadership. New teaching aids and devices appear which are designed to improve one's leadership abilities. All of this activity should indicate that today's practicing manager knows a great deal about the leadership process; however this is not tour. Many managers appear to experience difficulty performing effectively in leadership roles. As the above quote states, leadership is and must be a concern of society and organizations in this connection, a research question is formulated that whether is there any leadership quality for leaders between non-academic staffs in the Eastern University, Sri Lanka.

For this study Eastern University, Sri Lanka was selected. Non-academic staff of hundred and were also selected as sample. Then data were collected from selected sample. With the help of these collected data, data presentation and data analysis were made to test the level of leadership quality of the non-academic staff in Eastern University. Sri Lanka.

Analysis showed a moderate level of leadership quality for the non-academic staff in Eastern University. Sri Lanka.
