EXECUTIVE SUMMARY

In order to complete my Degree I prepare this thesis. But my objectives go beyond this. I expect my thesis must give an opportunity to develop our District maximum. That's why I selected Transportation Development in Trincomalee. Transportation is the main thing in the development process of any place, you all know the existing civil disturbances. However I try to develop Transportation in the district with my development plan fully depend on solution to the existing ethnical problems. Being a optimist I hope this problem will be brought into control and my development Plan will contribute a lot in the development process on the district.

This development plan consists of eight chapters. First Chapter is the Introduction Part. Second Chapter is the Literature Review. This Chapter was mainly included for the reason that my thesis is a Development Plan. Third Chapter explains the present situation of development in Trincomalee. Fourth Chapter explains Strength and Weakness of Internal Factors through the Capability Profile. Fifth Chapter explains Threat and Opportunities through the PEST Analysis. Sixth Chapter is Clarification of Objectives. The Seventh Chapter is Strategy Formulation and the Final Chapter is the action Plan with time frame and responsible persons.
